Date: April 24, 2021

Time: 2:00pm – 4:00pm

Fee: PKR 800/

- E-Certificate will be provided
- Limited seats on first come, first served basis

Collaborative Learning Approach is a way of teaching learners by putting them into groups and letting them share thoughts, exchange ideas and ask questions to learn from each other's point of view. Collaboration is one of the 4C's of the 21st century skills which aims to foster deeper learning at all levels. When learners work in collaboration, they solve complex problems, complete tasks or learn new concepts in a more engaging environment. Collaborative learning is successfully applied to an onsite classroom, but it becomes a challenge for teachers to apply this approach to online classrooms since the teacher has to provide scaffolding to all groups or children at the same time. This training will equip teachers with free online tools to make Collaborative Learning approach applicable to their online classrooms where they would be able to facilitate learners with constant feedback in an organized manner. The participants would experience useful and practical techniques and tools which will help them to convert their classrooms into Collaborative Learning Spaces by using engaging tools for this purpose.
