

Leveraging the Power of Chat GPT: A Workshop on How Chat GPT is an Asset for Teachers and Learners

In this online workshop, we will explore how Chat GPT can be an asset for teachers and learners in enhancing the learning experience. Chat GPT, an AI language model, has the potential to provide personalized feedback, practice conversational skills, access to information, interactive learning, and language practice. As teachers, we can leverage Chat GPT to create engaging learning experiences for our students, provide instant feedback, and promote critical thinking and creativity. For learners, Chat GPT can be used as a tool to enhance their learning experience, practice language skills, and access information on a wide range of topics. During this workshop, we will discuss different ways teachers and learners can use Chat GPT, explore best practices for using the tool ethically and responsibly, and share tips and tricks for maximizing its potential. By the end of the workshop, participants will have a deeper understanding of how Chat GPT can be used as an asset for teachers and learners and will be able to incorporate the tool into their teaching and learning practices.

Shireen Khan is a 25-year social entrepreneur and NLP-based Performance Boosting Strategist in Pakistan. She helps bridge the gap between students, teachers, and industry, improving self-awareness, capacity, and productivity. Shireen works primarily with students, solo entrepreneurs, and women entrepreneurs to boost confidence and productivity through personal

and professional skills development. She has expertise in content and course development, writing, graphics, digital marketing, and work-life stress management. Shireen has completed various courses, including a Master Trainer Course from TDC, and is a Lifetime Member of SPELT.
