

# AI in Language Classrooms: Redefining Teaching and Learning for the 21st Century

The webinar will highlight key AI tools that can enhance both teaching efficiency and student engagement, providing practical tips for integrating these technologies into everyday classroom activities. We will also explore how AI can be used to support differentiated learning, allowing teachers to cater to individual student needs more effectively. Furthermore, the session will discuss how to stay updated with the rapid advancements in AI, ensuring that teachers remain adaptable in their instructional methods. Participants will gain insight into the role of AI in promoting critical thinking and creativity, offering a future-ready approach to English language teaching. Besides that, the session will offer insights on maintaining a balance between AI-driven instruction and the essential human elements of teaching, ensuring a holistic learning experience for students.
