

**TARGET AUDIENCE:** All Teachers, Coordinators, Principals and Heads

## BEYOND BASICS: ELEVATING TEACHING WITH AI INTEGRATION

This interactive online workshop, "Beyond Basics: Elevating Teaching with AI Integration," is designed to help educators explore the practical use of artificial intelligence in teaching and learning. Participants will engage in hands-on activities, collaborate on lesson planning, and analyze real classroom scenarios to develop a deeper understanding of how AI can enhance instruction, differentiation, and assessment. The workshop will also address ethical considerations and support participants in creating personalized action plans for meaningful and responsible AI integration in their own educational contexts.

***Farheen Hasan** is an MS Scholar; her research field is Women in Educational Leadership Role. She is a Cambridge Certified Trainer, NLP Associate Practitioner, Career Coach, an OG Practitioner, an IB Certified Teacher working as a Wellness and Debate Coordinator at an inclusive school and is also affiliated with EDLAB Pakistan as remote manager operation. She is also serving voluntarily at SPELT, AsiaTEFL, NuHE and Kiran Foundation.
