

TARGET AUDIENCE: All Teachers, Coordinators, Principals and Heads

AI – A POWERFULLY EFFICIENT RESOURCE, NOT A SHORTCUT

As artificial intelligence (AI) becomes increasingly prevalent in education, teachers must navigate its opportunities and challenges. This session will explore how AI can be a powerful resource to enhance teaching, streamline administrative tasks, and foster student engagement—without compromising critical thinking, creativity, or pedagogical integrity. Participants will gain a deeper understanding of AI's capabilities and limitations, engage in hands-on exploration of AI tools, and develop practical strategies for responsible AI integration. By the end of the session, educators will be equipped to use AI effectively as a teaching aid—ensuring it remains a tool for growth, not a shortcut that diminishes learning.

***Shireen Khan** is a 25-year social entrepreneur and NLP-based Performance Boosting Strategist in Pakistan. She helps bridge the gap between students, teachers, and industry, improving self-awareness, capacity, and productivity. Shireen works primarily with students, solo entrepreneurs, and women entrepreneurs to boost confidence and productivity through personal and professional skills development. She has expertise in content and course development, writing, graphics, digital marketing, and work-life stress management. Shireen has completed various courses, including a Master Trainer Course from TDC, and is a Lifetime Member of SPELT.*
