35 Years of  
Empowering  
Teachers

In this ever changing world, the need to make learning better and more productive is a teacher's main objective. To make teaching meaningful and pleasant for both the student and teacher, it is very important to keep abreast with innovations in the field of teaching. It is today, here at school that you shape lives to make a better tomorrow. Keeping this in view, there is a need to address the importance of co-operative learning in the classroom as it facilitates the teaching-learning process.

### OBJECTIVES

The objectives of the workshop are to:

- increase teachers' awareness of the difference between co-operative learning and traditional group work
- discuss the benefits of cooperative learning
- familiarize teachers with the strategies of successful cooperative learning
- help teachers learn what positive interdependence is and how it can be practiced in the classroom

The workshop will provide teachers numerous ideas/activities that they could take back to their classroom.
