Reading is a multifaceted process that draws upon many skills. It involves word recognition, comprehension, fluency and motivation. There are four methods for teaching reading. Out of them, teaching through phonics is a well-known and most commonly used method.. Discovering the correct way of teaching phonics will help teachers to develop proficient readers.

In this interactive online webinar, teachers will learn specific methods of how to teach reading to beginners with a focus on phonics.

At the end of the webinar, teachers will be able to:

- **examine the term phonological awareness**
- **classify the stages of reading**
- **Identify the problem areas of struggling readers**
- **practice strategies to teach phonics**

This webinar will enable teachers to become aware of the problem areas, identify the struggling readers, target the problems and help the learners overcome their difficulties.
