

## Action Research for Teachers

Action research refers to teacher-conducted classroom research that seeks to clarify and resolve practical teaching issues and problems. Its primary goal is to improve teaching and learning in schools and classrooms and it is conducted during the process of regular classroom teaching. It is usually small-scale and is intended to help resolve problems rather than simply be research for its own sake. It can be carried out by an individual teacher or in collaboration with other teachers. By changing the role of teachers, we can profoundly change the teaching and learning process in our schools. In this session, the presenter will explain the basic concept and procedure of action research and will involve the participants in some activities.

*Dr Muhammad Umar Farooq is working as Professor/ Head of Department of English at Capital University of Science & Technology, Islamabad. He is a teacher trainer and researcher.
