

DIGITAL TOOLS FOR INNOVATIVE TEACHING

Today we live in a world of technology. Covid 19 has caused the world to remold itself dramatically. The impact has been transformational for Professionals in all sectors. Considerably, a need to develop a digital learning hub has emerged for the educational sector. To ensure positive student engagement in the Hybrid learning model, embracing web-based tools is imperative for educators. A considerable difference can be made by using digital tools to enhance students' learning experiences. The tools available online unlock avenues of accessibility for both learners and educators. It also encourages connected learning, enables self-directed learning, and produces flexible choices and other benefits. Digital learning provides a better understanding and a sense of perspective. It is more engaging and allows students a better connection if designed to attain pre-defined learning outcomes. The new generation is born connected and is already wired with technology. These new learners require diverse, interactive, and engaging resources to enhance the learning experience. They need teachers, parents, and other partners, who are tech-savvy to promote a positive and enjoyable learning environment. Keeping this in consideration, this training is designed to introduce the participants to several tools to engage learners while supporting learning.
